

SEO Audit

Optimizing Living Libations

Hai Oliveira

Executive Summary

Key Findings and Recommendations:

I've found several areas where further improvements can be implemented to enhance visibility and drive organic traffic for Living Libations.

Internal SEO:

- **Category and Navigation Structure:** Reorganizing of categories and navigation to positively impact user experience and search engine crawlability.
- **Internal Linking:** Consistent and strategic internal linking is essential for improving site structure and search engine visibility.
- **Canonical Tags:** While canonical tags are in place, ensuring consistency and completeness across all pages is crucial.

Executive Summary

Technical SEO:

- **Site Speed:** Need to optimize website speed by compressing images, minifying code, and leveraging browser caching.
- **Mobile-Friendliness:** Ensure website is fully responsive and provides a seamless experience on all devices.
- **XML Sitemap:** Regularly update and submit your XML sitemap to search engines to provide a comprehensive overview of website's content.

Content and Backlinks:

- **Content Quality and Quantity:** Create high-quality, informative content that aligns with target audience's interests.
- **Backlink Strategy:** Focus on building high-quality backlinks from reputable sources within the industry.
- **Social Media Engagement:** Leverage social media to promote content and increase brand visibility.

By implementing these recommendations, Living Libations can further enhance its search engine rankings, attract more organic traffic, and drive conversions.

Keyword Plan

After conducting extensive keyword research using Semrush and other tools, I selected 50 strategic keywords to enhance Living Libations' online visibility and drive conversions. These keywords, such as "anti-aging skin care" and "all-natural skin care regimen," align closely with the target audience's search intent.

To effectively leverage these keywords, I would create a new "Green Living" blog section. By developing informative articles around these topics aiming to provide valuable content to the audience while improving search engine rankings. Additionally, I plan to collaborate with relevant blogs and influencers to cross-promote the content and establish valuable backlinks. This integrated approach will not only attract organic traffic but also guide potential customers through the conversion funnel, from initial awareness to final purchase.

Funnel Keyword Strategy

```
graph LR; A((Funnel Keyword Strategy)) --> B[1 Awareness]; A --> C[2 Consideration]; A --> D[3 Purchase]; A --> E[4 Retention]; A --> F[5 Advocacy];
```

1

Awareness

Keyword: "natural beauty products"

Strategy: Target this broad keyword in blog posts, social media content, and website meta descriptions. Create informative articles about the benefits of natural beauty products and how they differ from traditional options.

2

Consideration

Keyword: "best organic skincare brands"

Strategy: Use this keyword in product pages, comparison tables, and blog posts that highlight the unique features and benefits of Living Libations products compared to competitors.

3

Purchase

Keyword: "all-natural skin care regimen"

Strategy: Create detailed guides and tutorials on how to use Living Libations products to create a complete skincare routine. Use this keyword in titles, headings, and body content.

4

Retention

Keyword: "Living Libations customer reviews"

Strategy: Encourage customer reviews and testimonials the website and social media. Use this keyword to highlight positive feedback and address any concerns.

5

Advocacy

Keyword: "Living Libations referral program"

Strategy: Create a referral program that rewards customers for recommending Living Libations to their friends and family. Use this keyword to promote the program and incentivize customer advocacy.

Website Overview

Website Content Audit

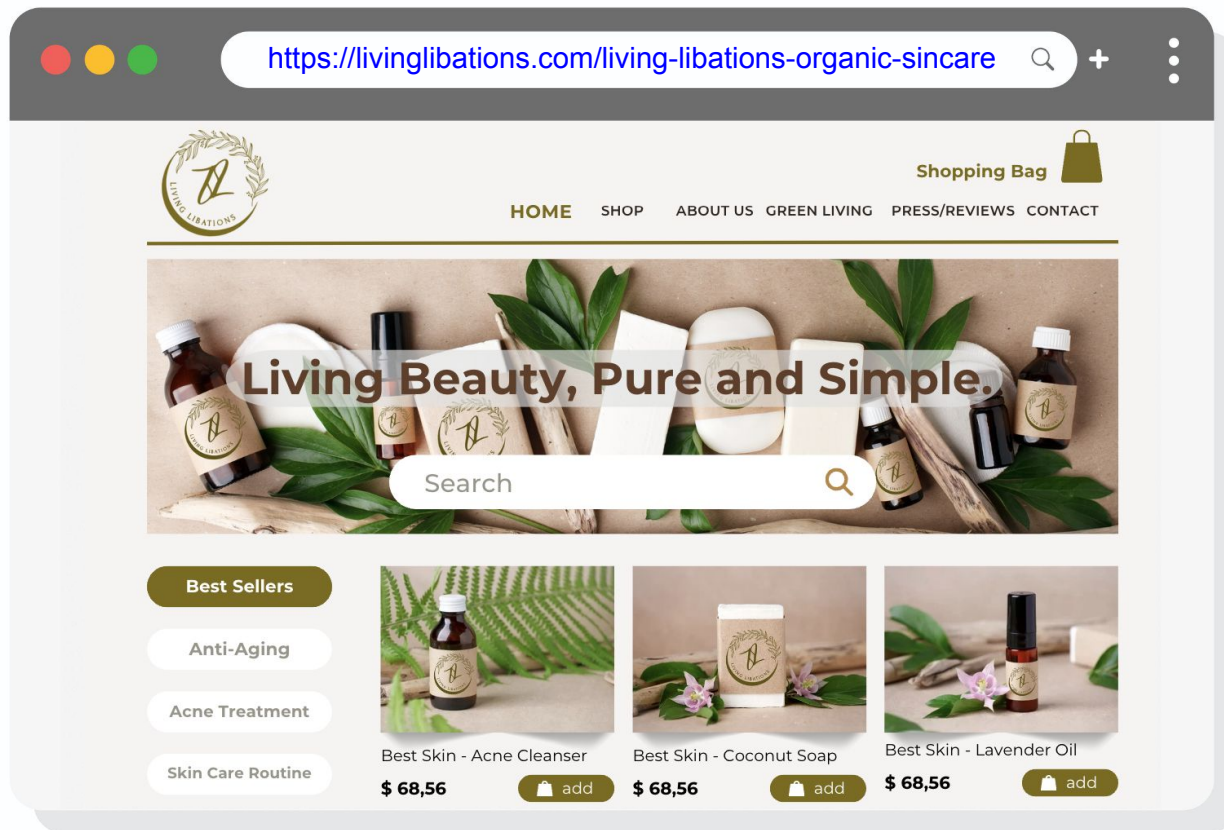

Living Libations' website needs a major update to match its brand and enhance user experience. Currently, the color scheme and logo seem outdated and don't reflect the company's products well. The product categories are confusing, making it hard for visitors to find what they want.

For SEO, the product names and categories aren't optimized, reducing visibility. Moreover, the content can be misleading and confusing. It's vital to clarify the brand's focus and offerings for a better user experience. In order to gain a higher click-through rate, I would ensure that all pages have meta descriptions that contain relevant keywords. I would also specify relevant alt attributes for images and improve on-page content including more than 200 meaningful words.

Website Content Audit - Rebranding

Cleaner, user-friendly design with a focus on simplicity and speed, the site loads quickly and offers a clutter-free navigation experience. I would also optimize the URLs to improve search engine visibility and make it easier for customers to find what they're looking for.

Website - Internal Linking

Website - Internal Linking

By simplifying the categories and creating a more intuitive navigation, I've made it easier for visitors to find the information they're looking for. The breakdown into Wellness, Skin Care, and Home & Living categories provides a clear and logical structure, while the subcategories further enhance usability.

The addition of a dropdown menu for Press and Reviews streamlines the user experience and makes it easier to access this important information. Contact has Location and Contact form, easy to navigate. Overall, these changes will positively impact user satisfaction and website engagement as well as search engine readability.

Technical Improvements

To improve the website's search engine ranking and attract more organic traffic, I recommend focusing on these technical optimizations:

- **Speed things up:** Make website load faster by reducing image file sizes, minimizing HTTP requests, and optimizing your code.
- **Go mobile:** Ensure website looks great and works smoothly on all devices, especially smartphones and tablets.
- **Organize content:** Create a clear structure with headings and subheadings, and link related pages together to help search engines understand the website.
- **Describe images:** Use descriptive alt text for images so search engines know what they're about.
- **Submit a sitemap:** Create a sitemap and submit it to search engines to help them find all important pages.
- **Avoid duplicates:** Make sure the website don't have multiple versions of the same page, as this can confuse search engines.

By implementing these improvements, you'll make your website more user-friendly and search engine-friendly, which will help you attract more visitors and achieve better results.

Content - Youtube Post

"The Ultimate Organic Skincare Routine: A Step-by-Step Guide"

Showcase Living Libations' best-selling products in a visually appealing and informative video. Demonstrate how to create a daily skincare routine using these organic products, highlighting their benefits and how they work together.

Target Audience: Skincare enthusiasts, those seeking natural alternatives, and people interested in organic beauty.

Content - Social Media Posts

"Chocolate Ruby Blushing Balm: Your Everyday Essential"

Series of social media posts showcasing the versatility of the Chocolate Ruby Blushing Balm. Highlight different ways to use the product, such as a blush, lip tint, or eyeshadow. Encourage user-generated content by asking followers to share their favorite ways to use the product.

Target Audience: Beauty enthusiasts, makeup lovers, and people seeking multi-purpose products.

Content - Blog Post

3 Must-Have Products for Radiant Skin

Living Libations is renowned for its commitment to organic, wildcrafted beauty products. Here are three essential items from their collection that can elevate your skincare routine:

1. **Seed to Seal Rosewater:** This delicate, floral mist is packed with antioxidants and soothing properties. Use it as a toner, makeup setter, or simply to refresh your skin throughout the day.
2. **Sea buckthorn Oil:** This nutrient-rich oil is a powerhouse for dry, irritated skin. It contains omega fatty acids, vitamins, and antioxidants that help to nourish, hydrate, and protect the skin.
3. **Matcha Illuminating Face Mask:** This detoxifying mask is made with organic matcha green tea, which is rich in antioxidants and helps to brighten the complexion. Use it once or twice a week for a radiant glow.

Backlinks Strategy

In my Backlink Audit for Living Libations I found a mix of good and bad links. Some high-quality links are missing the “follow” attribute, while others are low-quality with a “follow” function and could harm the website's reputation.

To improve this backlink profile, I recommend using Google Search Console Disavow tool to remove bad links and reaching out to webmasters to request “nofollow” attributes for low-quality links. Additionally, I would focus on building high-quality backlinks from reputable sources to boost search engine rankings by reaching out to current links pages and offering more relevant materials as well as reaching to new potential websites with high AS.

Bonus - Canonicals

Living Libations has made a good start by using canonical tags on some pages. However, to fully optimize for search engines, it's essential to create canonical tags for all versions of your website's pages, including those with "www" and "https://" prefixes. This will help prevent duplicate content issues and improve your search engine rankings.

Living Libations current Canonicals:

```
"canonical_url":"https:\\\\livinglibations.com\\
```

```
\\canonical_url\\":"https:\\\\\\\\\\\\livinglibations.com\\\\
```

```
<link rel="canonical" href="https://livinglibations.com/">
```

Bonus - Sitemap Inclusions

I've noticed Living Libations has multiple sitemaps, which is a good start. To improve the sitemap structure, I recommend consolidating them into a single, comprehensive XML sitemap. This will provide search engines with a clear overview of the website's content.

Make sure to include all relevant pages, such as homepage, product pages, category pages, blog posts, and contact page. Optimizing the sitemap will help search engines crawl and index your content more efficiently, boosting search engine rankings.

Living Libations current Sitemap:

```
▼<sitemap>
  <loc>https://livinglibations.com/sitemap_products_1.xml?from=5183804145802&to=8264923250826</loc>
</sitemap>
▼<sitemap>
  <loc>https://livinglibations.com/sitemap_pages_1.xml</loc>
</sitemap>
▼<sitemap>
  <loc>https://livinglibations.com/sitemap_collections_1.xml</loc>
</sitemap>
▼<sitemap>
  <loc>https://livinglibations.com/sitemap_blogs_1.xml</loc>
</sitemap>
</sitemapindex>
```

Bonus - REP Tags

To optimize the website internal linking structure and improve search engine visibility, I would strategically implement `rel="nofollow"` attributes. While most pages should be indexed and followed, certain pages, such as your "About Us" and "Contact" pages, might not require following. By using "nofollow" attributes on these pages, I can prevent search engines from passing link equity to external websites, focusing their attention on most valuable content. Additionally, for pages like "Shipping Policies," I would use the "noindex" attribute to prevent them from appearing in search engine results. This can help streamline the website's focus and improve its overall search engine rankings.

Bonus - Robots.txt

Bonus - Robots.txt

Currently, Living Libations robots.txt might be blocking important content like product pages and blog posts. Allowing crawling of these subdirectories helps search engines index the website's content more effectively. To improve the website's search engine visibility, I would consider allowing search engines to crawl specific subdirectories.
